AIMS AND SCOPE

This international quarterly journal publishes original articles, short communications, reviews, letters, technical notes, book reviews, announcements, and editorials/annotations on all aspects of pediatric hematology and oncology. The journal deals with immunology, pathology, and pharmacology in relation to blood diseases and cancer in children and shows how basic experimental research can contribute to the understanding of clinical problems. Articles from all over the world are considered for publication in the journal. Papers on related ethical, psychological, social, cultural, or historical aspects of these fields are also appreciated. The journal is not dependent on or connected with any organization or society.

Abstracted and/or Indexed in: Current Contents/Clinical Practice, Current Awareness in Biological Sciences, BIOSIS, Excerpta Medica, MEDLARS, Oncology Information Service, and Cambridge Scientific Abstracts.
